

A-

Yes, some of them I can.

B-

Facebook – focused on meeting new people and assembling old friends.

WhatsApp – an applicative made for sending messages to other people who have a smartphone.

Instagram – social network where you can show your pictures to people who are in your net.

Snapchat – applicative where the messages auto-delete after a few moments.

Twitter – where you can send small messages to the others users.

C-

- 1) It's about the groups in facebook.
- 2) I know it's a place inside the social network where people gather to discuss about a certain subject.
- 3) No.
- 4) All of them are things that are related to the groups in Facebook, there are posts, admins, people, etc.

D-

3. Welcome new people – Because they will feel embraced, so they will be happy to discuss more.
8. Ask questions – So you will stimulate people to participate.
4. Let members know they can invite others – That way the group will grow up.
9. Tag people in posts – So they can feel themselves important.
10. Check in at least once a week – To see how is everything going on.

E-

I think they chose to present the 3, 9 e 10 tips. Unfortunately I'm not able to access the video.

F-

Give some examples... → Tell people a few...

Look for interesting... → Help spur participation...
